	<i>American Association for Laboratory Accreditation</i>	
	C313 –Specific Checklist: OFTA Hong Kong Telecommunications Certification Body (TCB) Evaluation	Document Revised: December 20, 2011
		Page 1 of 24

This checklist is intended for use in association with A2LA assessments of Telecommunication Certification Bodies (TCB’s). Use of this document is restricted to A2LA employees, A2LA contractors, applicant and accredited TCBs. Any other use of this document is prohibited.

This evaluation form addresses specific criteria relating to accreditation of a TCB to determine the capability and competence of that organization to approve equipment subject to certification requirements contained in the Hong Kong requirements. It is intended for use during the assessment phase of the accreditation process as a guide to evaluate the competence of the TCB and its personnel to perform the required evaluations for certification. It is not intended to replace the good engineering judgment of the technical assessor or a thorough evaluation of the facility. Other points may and should be added to this checklist as the on-site assessment progresses.

Instructions to the Assessor: Confirm all items you observed and verified at the TCB and ensure each compliance filed is appropriately marked. The “Y” box shall be marked to show acceptable conformance; the “N” box is marked to show non-conformance; and the “NA” box is marked when the question is not applicable. All boxes marked “N” shall also be recorded as a deficiency in the assessment report.

	Document Revised: December 20, 2011	
Page 2 of 24		

C313 – OFTA Hong Kong Specific Checklist: Telecommunications Certification Body Evaluation

To the best of my knowledge, this Telecommunication Certification Body have also been assessed for compliance with the relevant clauses of ISO/IEC Guide 65, [R307- General Requirements: Accreditation of ISO/IEC Guide 65 Product Certification Bodies](#) and [R308 - Specific Requirements - Telecommunication Certification Body Accreditation Program](#). I hereby attest that all ‘Yes’ marked compliance clauses, whether initialed or not, meet the aforementioned requirements. Any areas of noncompliance have been fully described in the Assessor Deficiency Report.

General Questions				
1. The applicant is accredited to ISO/IEC Guide 65.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
2. The applicant is accredited to ISO/IEC 17025 for testing capabilities under the scope for which recognition is sought and/or;	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
3. The applicant has entered into contractual arrangement with a testing laboratory, which has been accredited to ISO/IEC 17025 with the appropriate scope. (Check the relevant documents).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
4. The applicant understands the technical regulations of OFTA (Ask for a demonstration on how to access HKTA specifications, safety requirements, EMC requirements via the Internet).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
5. The applicant's certification procedure is available and assessed to be acceptable.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
6. The applicant's auditing procedure is available and assessed to be acceptable.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
7. The applicant's post-market surveillance procedure is in place and assessed to be acceptable.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

8. The applicant is aware that it needs to seek consent from the grantee during the certification process for allowing OFTA to post the technical information of certified products onto OFTA website.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
A. Fixed Network Equipment				
Customer Premises Equipment (CPE) Connected to PST				
9. The applicant has the latest version of HKTA 2011 and applicable reference standards.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
10. The applicant has the necessary facility, testing equipment and competence in testing the transmission characteristics of CPE using the methods as specified in Annex 1 to HKTA 2011.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
11. The applicant has the knowledge and expertise in evaluating test data, test reports and technical documents provided by its own or subcontracted testing laboratories for compliance with the essential technical requirements listed in HKTA 2011.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
