

	<i>The American Association for Laboratory Accreditation</i>	
	F227 – A2LA EPA ENERGY STAR Laboratory Consent Agreement	Document Issued: August 10, 2010
	Page 1 of 1	

Accreditation Bodies maintaining recognition with the Environmental Protection Agency’s (EPA’s) ENERGY STAR® Program must adhere to the Conditions and Criteria for Recognition of Laboratories for the ENERGY STAR Program. One condition within this requirements document is as follows:

“Authorize the laboratory’s AB (Accreditation Body) to share with EPA copies of assessment documentation related to ENERGY STAR testing, including corrective action plans and deficiency resolutions.”

Therefore, in order to participate in the A2LA ENERGY STAR Accreditation Program, and prior to undergoing an on-site assessment, we will need your consent to permit A2LA to provide the information listed above to the EPA upon request.

Please sign and return this document to A2LA headquarters via:

Mail: A2LA, 5301 Buckeystown Pike, Suite 350, Frederick, MD 21704.

Fax: 301-662-2974

Email: Your lab’s Accreditation Officer (AcO), or info@a2la.org if you do not know your AcO’s email address.
